

Upload an Imaging Study to Stanford Children's Health

Audience: Parties outside of Stanford Children's Health that have been provided with a link to upload imaging studies for review by a Stanford care provider.

Summary: When using the available link to upload a study to Stanford Children's Health's image sharing platform, please follow the instructions below.

Upload Study

Preferred Browser: Google Chrome, Microsoft Edge, Firefox, Safari

The link that is provided to you should take you to this page:

The screenshot shows the 'ImageShare' interface. At the top left is the Stanford Children's Health logo. The main heading is 'ImageShare' in red. Below it, the text reads 'Share medical images with Neurosurgery Department Patient Portal'. A numbered list indicates the steps: '1 Enter your email address', '2 Select your image CD or file', and '3 Upload and share your images'. Under step 1, there is a text input field labeled 'Enter your email address' and a blue 'Continue' button below it.

1. **Enter your email address.** If you have used Ambra before and have an account associated with your email, you will proceed directly to step two after entering your password. If you are a first-time user, Ambra will ask you to create an account by providing the following fields:

The screenshot shows the 'ImageShare' registration page. It includes the same header and step list as the previous screenshot. Under step 1, the text says 'Enter your name and a password'. There are four required input fields: '* Email', '* First name', '* Last name', and '* Password'. Below the password field, there is a note: '8 characters or longer, containing 2 numbers and 2 letters'. There is also a '* Confirm password' field. At the bottom, there are three checkboxes for accepting terms: '* I accept the Terms of Use', '* I accept the Privacy Policy', and '* I accept the Indications for Use'. At the very bottom are 'Continue' and 'Cancel' buttons.

Establishing your personal Ambra user account will provide:

- Secure, cloud storage, of your uploaded imaging studies
- Ability to access and/or share imaging studies in the future by logging in to <https://access.ambrahealth.com/>

Upload an Imaging Study to Stanford Children's Health

2. Select your image CD or File and Choose your Images

In the example below, I have selected my DVD drive and clicked Open. Please navigate to where you have your study located on your computer. Once you click on open, Ambra will begin scanning for imaging studies.

3. Upload and Share your images

- A: Select the studies you wish to upload and share with Stanford Children's Health.
- B: Enter the date of your future appointment.
- C: Enter the name of the care provider you are scheduled to see.
- D: Check the acknowledgement box.
- E: Click Upload Selected Studies.
- F: Your upload progress will be indicated.
- G: Your upload is completed, you may upload additional studies, view the images, or upload a radiology report to accompany the studies.

	Description	Images	Patient Name	DOB	Modality	Study Date
A	<input checked="" type="checkbox"/> CT C-Spine	1495	Anon59170	09-01-1960	CT	03-23-2017

Date of your scheduled appointment with clinic
B
Use format: mm/dd/yyyy

Physician you will see at Stanford Children's Health
C
Use name format: Last, First

Message:

D I understand this study will be shared with Neurosurgery Department Patient Portal, I have authority to share this study.
